OBJECTIVE

Electronics and Communication Engineering undergraduate with a strong interest in Python development and software engineering. Seeking a Python Developer internship to apply programming skills, improve problem-solving ability, and gain hands-on experience in real-world software development projects.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering Dhanekula Institute of Engineering and Technology | 2023 – Present CGPA: 9.32 / 10.0

TECHNICAL SKILLS

- Programming: Python, C, C++
 - Core Concepts: Problem Solving, Basic Data Structures, Algorithms
 - Tools: GitHub, VS Code
 - Fundamentals: OOP Concepts, Debugging, Logical Thinking
-

PROJECTS

Python-Based Technical Projects

- Developed basic Python programs for problem-solving and logic building
- Worked on programming exercises involving loops, functions, arrays, and strings
- Practiced algorithmic thinking using Python and C++

Electronics & Embedded Background (Academic Exposure)

- Worked on electronics and circuit simulation concepts during coursework
 - Strong understanding of analytical and system-level thinking
-

CERTIFICATIONS

- Python Programming – NPTEL
- Data Structures – NPTEL
- VLSI Design – NPTEL (supporting technical foundation)

STRENGTHS

- Strong problem-solving and analytical thinking skills
- Quick learner with ability to adapt to new technologies
- Good understanding of programming fundamentals
- Dedicated and consistent in learning and skill improvement

INTERNSHIP OBJECTIVE

To gain hands-on experience in Python development, work on real-world applications, improve coding and debugging skills, and understand industry-level software development practices.

ADDITIONAL INFORMATION

- Strong academic performance with consistent learning focus
- Interested in software development, automation, and backend programming
- Active GitHub profile for coding practice and projects
